FOREWORD

The 2012 Census of Agriculture and Fisheries (CAF) was the sixth in a series of decennial agriculture censuses and the fifth in the decennial censuses of fisheries in the country. CAF has been a major source of countrywide statistical information on the structure and characteristics of agriculture and fishery in the country, which can assist in decision making and program planning for all sectors of society such as governments, businesses, academics, researchers, students, community organizations and individuals. The 2012 CAF is also a source of community-level data on selected agricultural and fishery services and facilities and community exposure to natural disasters that are essential in target area planning and program implementation.

The 2012 CAF Report on Barangay Characteristics presents information on the presence or availability of facilities, input dealers, and service providers related to agriculture, aquaculture, and fisheries in all barangays nationwide. This report also provides information on the occurrence of destructive natural calamities in the barangay in the past five years. As recommended in the World Programme for the Census of Agriculture 2010, these data were collected through the 2012 CAF community-level component to complement the holding- or farm-level census data.

The Philippine Statistics Authority (PSA) acknowledges and appreciates the support and cooperation of the barangay officials and staff who served as respondents to the CAF community questionnaire. Credit is also due to the regional and provincial personnel of the then National Statistics Office (NSO), for their contribution during the CAF data collection. The PSA central office staff who worked hard for the completion of data processing and preparation of this report is also acknowledged.

It is hoped that the data users will find this report useful. Moreover, we advise data users to use the data in this report with caution since the conduct of field validation was limited.

CHAPTER 1 EXPLANATORY TEXT

1.1 INTRODUCTION

The Census of Agriculture and Fisheries (CAF) is a large-scale government undertaking geared towards the collection and compilation of basic information on the agriculture and fishery sector in the Philippines. Over the years, the CAF has been a source of comprehensive statistics on agriculture for the use of general public, government, business industry, research and academic institutions. Moreover, data on available agricultural, aquaculture and fishery facilities and providers in the villages/communities (barangays in the Philippines) were collected as recommended in the World Programme for the Census for Agriculture (WCA) 2010. Such information, which were usually not obtained at the holding/farm level, are useful for examining the community facilities and services available to farmers or fisherfolks and are important for decentralized planning, identification, and implementation of development programs at the community level.

The 2012 CAF was the sixth decennial agriculture census undertaken by the then National Statistics Office (NSO), now part of PSA. The collection of agriculture data was first included in the Economic Census (EC) in 1903, 1918, 1939 and 1948. The Census of Agriculture was undertaken separately from the EC in 1960 and conducted simultaneously with the Census of Fisheries beginning in 1971 and every 10 years thereafter. These two census activities were collectively known as the CAF.

The 2012 CAF was conducted from February 25, 2013 to April 30, 2013. This operation primarily covered all households engaged in agriculture, aquaculture and capture fishing to obtain data about the operation of holding/farm, aquafarm and capture fishing. It also covered all barangays in the country and collected information on facilities, input dealers and service providers related to agriculture, aquaculture and capture fishing present or available in each barangay. The dominant terrain of the barangay and the number of destructive natural calamities experienced in the barangay during the past five years were also collected.

1.1.1 Objectives of 2012 CAF

The 2012 CAF was envisioned to achieve the following objectives:

1. Determine the structural characteristics of agriculture and fishery sectors,
2. Provide sampling frame for the conduct of statistical surveys on crop production, livestock and poultry raising and other agricultural undertakings,
3. Provide basic data for use in national as well as sub-national development planning, and
4. Provide data on agriculture, aquaculture, and fishery facilities and services in the barangay.

Specifically, this census aimed to:

1. Obtain data on the characteristics of the holdings/farms such as physical area, number of parcels, legal status, etc. and characteristics of parcels such as physical area, location, tenure status, main use, presence of irrigation structure/equipment, source of irrigation water, types of crops planted, planting pattern and area planted;
2. Determine the number of households with members engaged as operator of an agricultural and/or aquaculture and/or fishing activity (or activities);
3. Gather data on the legal status of agricultural holders/operators and operators of aquaculture and fishing activities;

4. Determine the type of agricultural activity (or activities) operated such as growing of crops, contract growing of trees, growing of orchids for sale, ornamental plant and flower gardening for sale, raising livestock and/or poultry, raising race horses and breeder dogs for sale, bee culture, sericulture and others;
5. Collect data on aquaculture such as the type of aquafarm, location and size/volume of aquafarm, type of water environment used, and the aquafarm species cultured/raised;
6. Obtain characteristics of the fishing activity such as the category of capture fishing, number of fishing boats/vessels used, ownership of boats/vessels, highest tonnage of boats/vessels used, type of boat/vessel used, and type and number of fishing gears/devices/accessories employed in fishing activity;
7. Determine the number of household members of the agricultural operators and/or operators of aquaculture and/or fishing activity as well as their selected socio-demographic characteristics; and
8. Collect data on the physical attributes of each barangay as well as presence/availability of agriculture and fishery facilities, input dealers and service providers.

1.1.2 Authority for 2012 CAF

The former NSO undertook the 2012 CAF in accordance with EO 121, which designated the said office as the *“major statistical agency responsible for generating general purpose statistics”* and Commonwealth Act (CA) 591, which authorized the then NSO *“to prepare for and undertake all censuses of population, agriculture, industry and commerce”*.

Moreover, EO 352, otherwise known as the *Designation of Statistical Activities that will Generate Critical Data for Decision-Making of the Government and the Private Sector*, provided for the conduct of census of agriculture every 10 years with the objective of providing government planners and policy-makers with data on which to base their plans for the country's development.

1.1.3 Confidentiality of information

In accordance with Section 4 of CA 591, information obtained from individuals or establishments during the census operation was STRICTLY CONFIDENTIAL and was not divulged to any person, except to the PSA personnel who were authorized and acting in the performance of their duties.

The individual information collected would not be used for purposes of taxation, investigation or law enforcement. Any person violating this provision shall, upon conviction, be fined or imprisoned, or both. Moreover, violation of this rule on confidentiality shall be punishable by fine, imprisonment, dismissal from work, loss of pay or liability to prosecution.

1.1.4 2012 CAF organizational set-up

The planning and preparation of the 2012 CAF started as early as the middle of 2009 through the creation of Census Steering Committee (CSC) and Working Groups to provide overall directions for the different activities of the 2012 CAF. The former NSO Administrator chaired the CSC with the Deputy Administrator as Vice-chair and was assisted by the different Department Directors. The CSC also consulted the field personnel concerning field operations.

The former NSO Director of the Household Statistics Department (HSD) coordinated and monitored all matters pertaining to the 2012 CAF through the 2012 CAF Census Project Staff, while the Census Planning and Operations Division was the subject matter division mainly responsible for the conduct of the census.

In the field offices, the former NSO Regional Directors (RDs) and the former Bureau of Agricultural Statistics (BAS) Regional Agricultural Statistics Officers coordinated, monitored and supervised the CAF operations in all provinces within their respective region.

The former NSO RDs also directly supervised the scanning and archiving activities with the technical supervision of the Information Resource Department and HSD. The former NSO Provincial Statistics Officers coordinated and supervised the census field operations, and manual and machine processing activities at the provincial level.

1.2 SCOPE OF 2012 CAF

In line with the objectives of 2012 CAF, the following data items were included in the census:

1. Name of holder/operator/hired manager and type of agricultural/aquaculture/fishing activity,
2. Legal status of the agricultural holder/operator and/or aquaculture and fishing activity,
3. Characteristics of the holding/farm such as physical area, number of parcels, etc. and characteristics of parcels such as area, location, tenure status, main use and irrigation,
4. Temporary and permanent crops, planting pattern, area planted, and number of trees/vines/hills,
5. Livestock and poultry raised,
6. Characteristics of the aquafarm such as type, location, area/volume, water environment, and the type of species cultured,
7. Characteristics of the fishing activity such as category of fishing, highest tonnage of boat/vessel used, number of boats/vessels used, and kind and number of fishing gears/accessories/devices,
8. Selected socio-demographic and economic characteristics of the household members, and
9. Information on the barangay facilities, input dealers and service providers related to agriculture, aquaculture and fisheries.

1.3 QUESTIONNAIRE AND METHOD OF DATA COLLECTION

1.3.1 Questionnaire

CAF Form 6 or Barangay Questionnaire is a two-page questionnaire used to gather data on agriculture, aquaculture, and fishery facilities and services and other characteristics of the barangays (refer to Glossary for the concepts and definition of each facility/service). This information was collected for the first time in 2012 CAF as proposed in the World Programme for the Census of Agriculture (WCA) 2010. These data on barangay characteristics are useful for examining the community facilities, and services available to farmers or fisherfolks and are important in identification and implementation of local development programs.

Data Items Collected

Part I - Presence/Availability of Agricultural, Aquaculture, and Fishery Facilities, Input Dealers, and Service Providers in the Barangay

- A. Facility
 1. Rice/corn mill
 2. Feed mill
 3. Slaughterhouse/dressing plant
 4. Agricultural processing facility/machinery/equipment
 5. Fish landing center
 6. Periodic or permanent agricultural produce market ("*bagsakan/bulungan*")
 7. Hatchery (*for poultry and aquafarm species*)

8. Breeding/multiplier farm (*for livestock and poultry*)
9. Nursery/greenhouse/screenhouse/nethouse

B. Input Dealer

1. Fertilizer dealer
2. Pesticide dealer
3. Seeds dealer
4. Feeds dealer
5. Veterinary medicine dealer

C. Service Provider

1. Veterinary/paraveterinary clinic/service
2. Rental of farm machinery/equipment
3. Financial credit institution
 - i. Commercial bank (including rural bank)
 - ii. Government bank
 - iii. Cooperative bank
 - iv. Microfinance institution
 - v. Individual money lender
 - vi. Self-help group
 - vii. Other sources, specify
4. Training and/or extension services to farmers and fisherfolks offered by:
 - i. Cooperative
 - ii. Farmers'/Fishermen's Organization
 - iii. Local Government Unit (LGU)
 - iv. Non-Government Organization (NGO)
 - v. Others, specify

Part II - Destructive Natural Calamity in the Past Five Years

1. Typhoon
2. Flood
3. Earthquake
4. Volcanic eruption
5. Tsunami
6. Landslide/mudslide
7. Infestation/animal disease
8. Drought
9. Others, specify

1.3.2 Method of Data Collection

The CAF Form 6 was accomplished by the Team Supervisor (TS) for each barangay with the Punong Barangay, Barangay Secretary, Barangay Kagawad, or any other knowledgeable barangay official as respondent. In case there were two or more TSs assigned in a barangay, that is, the barangay was divided into two or more Enumeration Areas (EAs), the TS assigned in the EA where the Barangay Hall was situated administered the questionnaire.

In relation to this task, the TS acquainted himself/herself with the boundaries of all the areas assigned to him/her using the map of the city/municipality. While supervising the ENs in the barangay/EA, the TS observed the agricultural, aquaculture, and fishery facilities, input dealers, and service providers that were present/available in the barangay. He/she also observed and took note of some traces of damages or physical changes in the barangay that were possibly brought about by natural calamities.

1.4 CONTENTS OF REPORT

This report includes national, regional, and provincial summary tables on the number and proportion of barangays where facilities or services were present. It also provides statistical tables on the details of these barangay facilities/services by region, province and highly urbanized city.

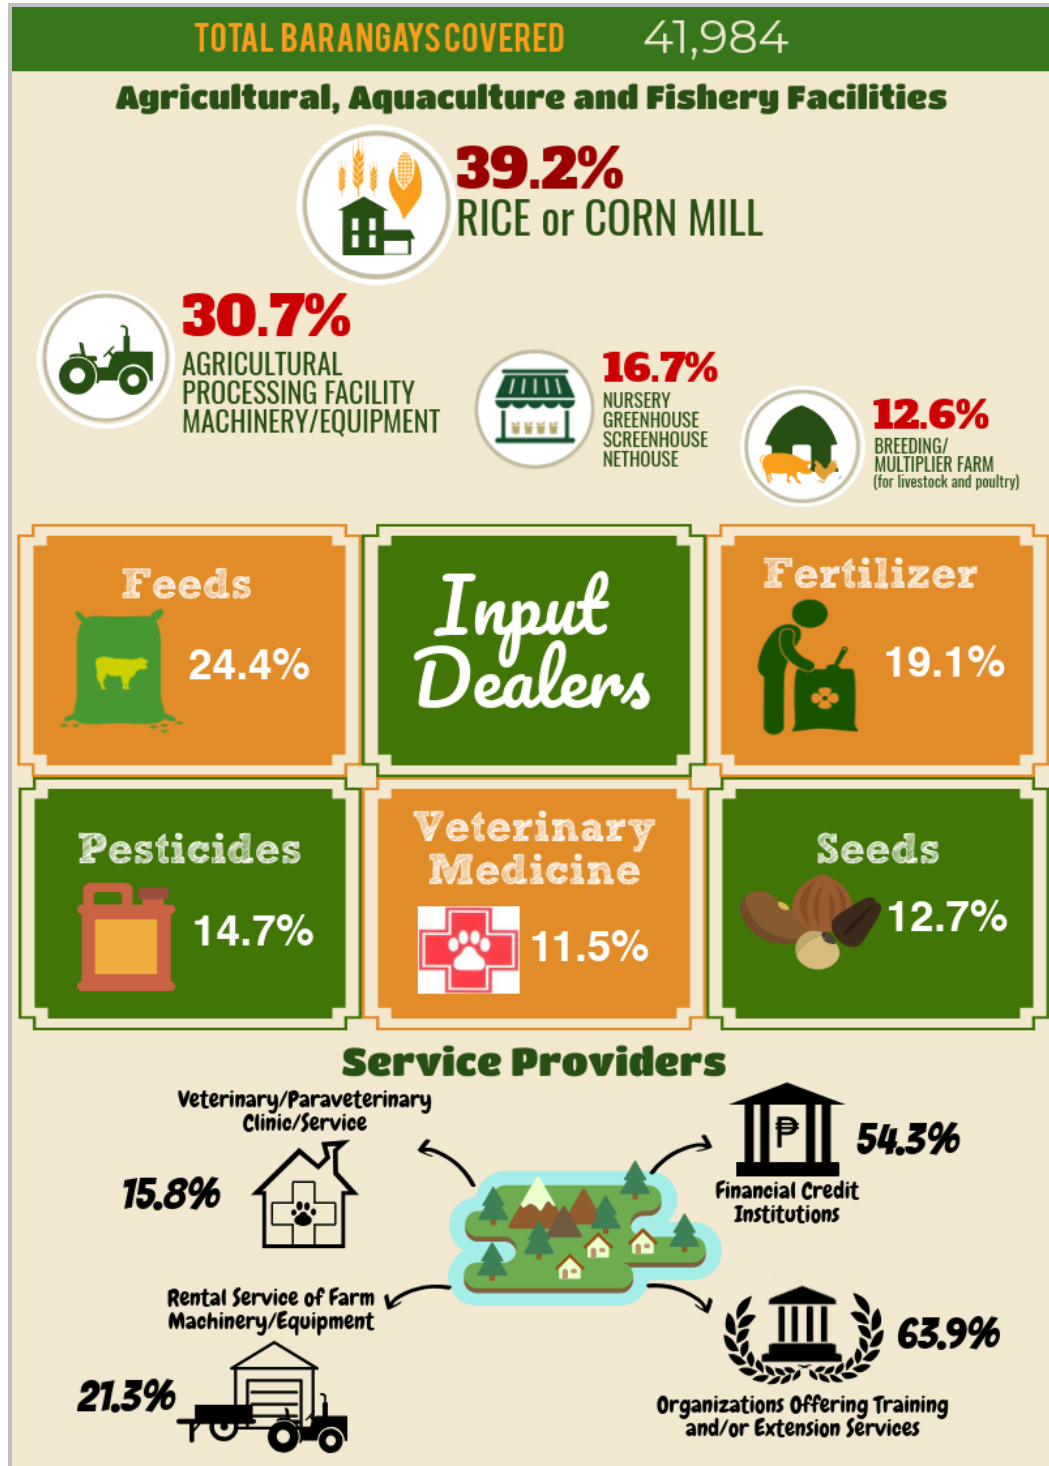

1.5 DATA LIMITATIONS

The total number of barangays based on the Philippine Standard Geographic Code as of 31 December 2013 was 42,028. However, only 41,984 barangays were covered in the 2012 CAF enumeration. There were 18 barangays of Baganga, eight barangays of Boston, and 16 barangays of Cateel in Davao Oriental were not covered because the households in these municipalities were displaced due to typhoon Pablo. Also, Barangay Uauang-Galicia in Santo Tomas, Isabela was not covered because the barangay was devastated by flood. Nevertheless, households in these barangays might have been enumerated in other municipalities where they were temporarily relocated. Likewise, no Barangay Chaireperson or Officials were interviewed in Barangay Bagong Lipunan (Market Area), Baguio City, Benguet was not enumerated because the barangay has been delisted based on Exclusion Case No. 96-01.

The data presented for each barangay were based on the information provided by the Punong Barangay or any other knowledgeable barangay official mentioned in 1.3.2. The data were not subjected to 100-percent field validation, hence, should be used with caution.

CHAPTER 2
HIGHLIGHTS OF RESULTS

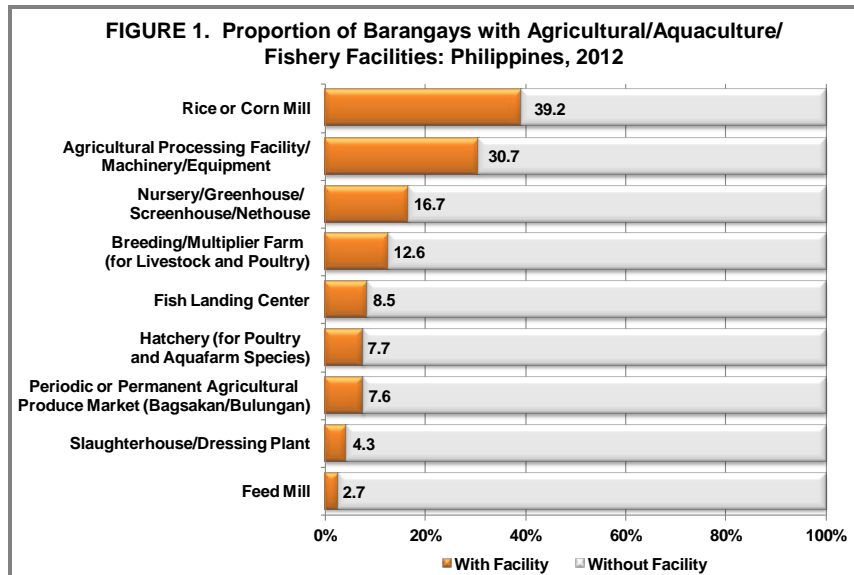

Presence/Availability of Agricultural, Aquaculture, and Fishery Facilities, Input Dealers, and Service Providers in the Barangay

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

2.1 Rice or corn mills were available in two out of five barangays in the country

The 2012 CAF Agriculture report showed that palay and corn were the major temporary crops planted in the country in terms of number of parcels used in planting temporary crops. This information rationalizes the presence/availability of rice or corn mills in 39.2 percent (16 thousand) of the 41,984 barangays covered in the 2012 CAF (Figure 1 and Table 1). The presence/availability of agricultural processing facility/machinery/equipment was present in one-third (13 thousand) of the total barangays. Fish landing centers and hatcheries for poultry and aquafarm species were less common, reported by 8.5 percent and 7.7 percent of the barangays, respectively. Feed mills were the least common, with only 2.7 percent (1 thousand) of the total barangays with such facility.

Across regions, SOCCSKSARGEN had the largest proportion of barangays with rice or corn mill, 67.4 percent (Table 2). Moreover, four in five barangays in Sultan Kudarat, which is one of the four provinces of SOCCSKSARGEN, had a rice or corn mill. Rice and corn mills were also common in the provinces of Kalinga, Capiz, Mountain Province and Abra.

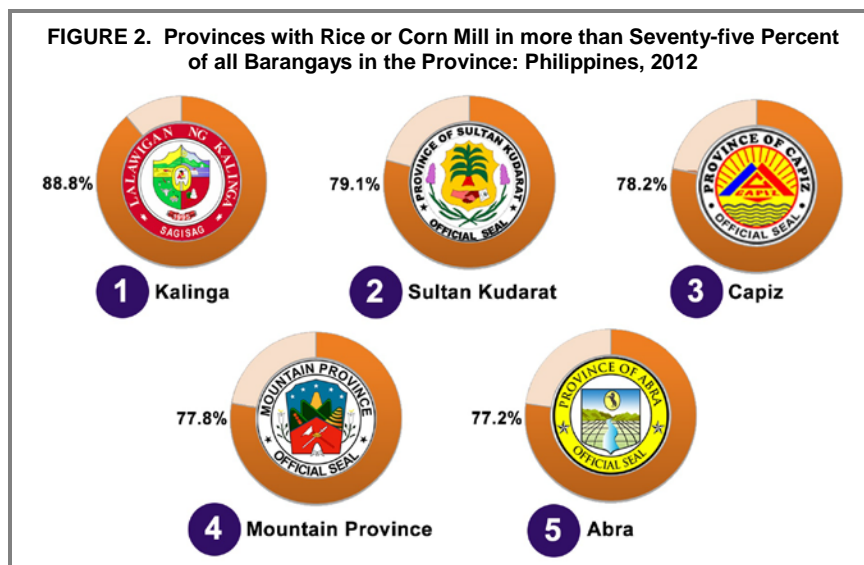

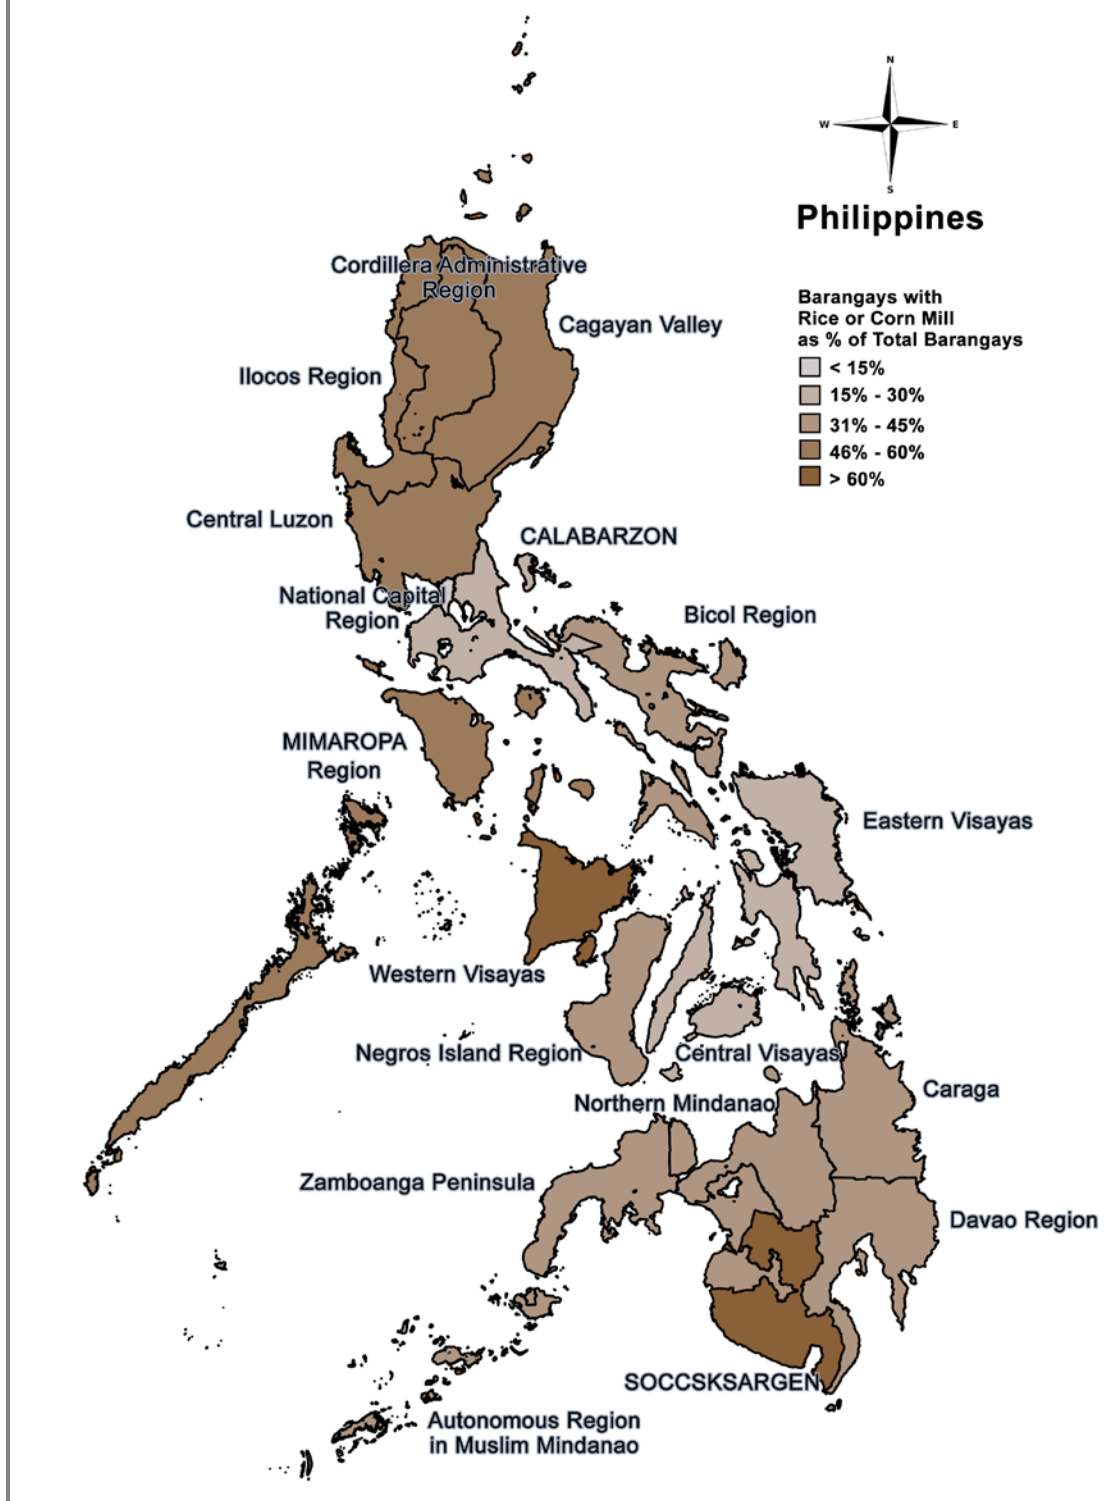

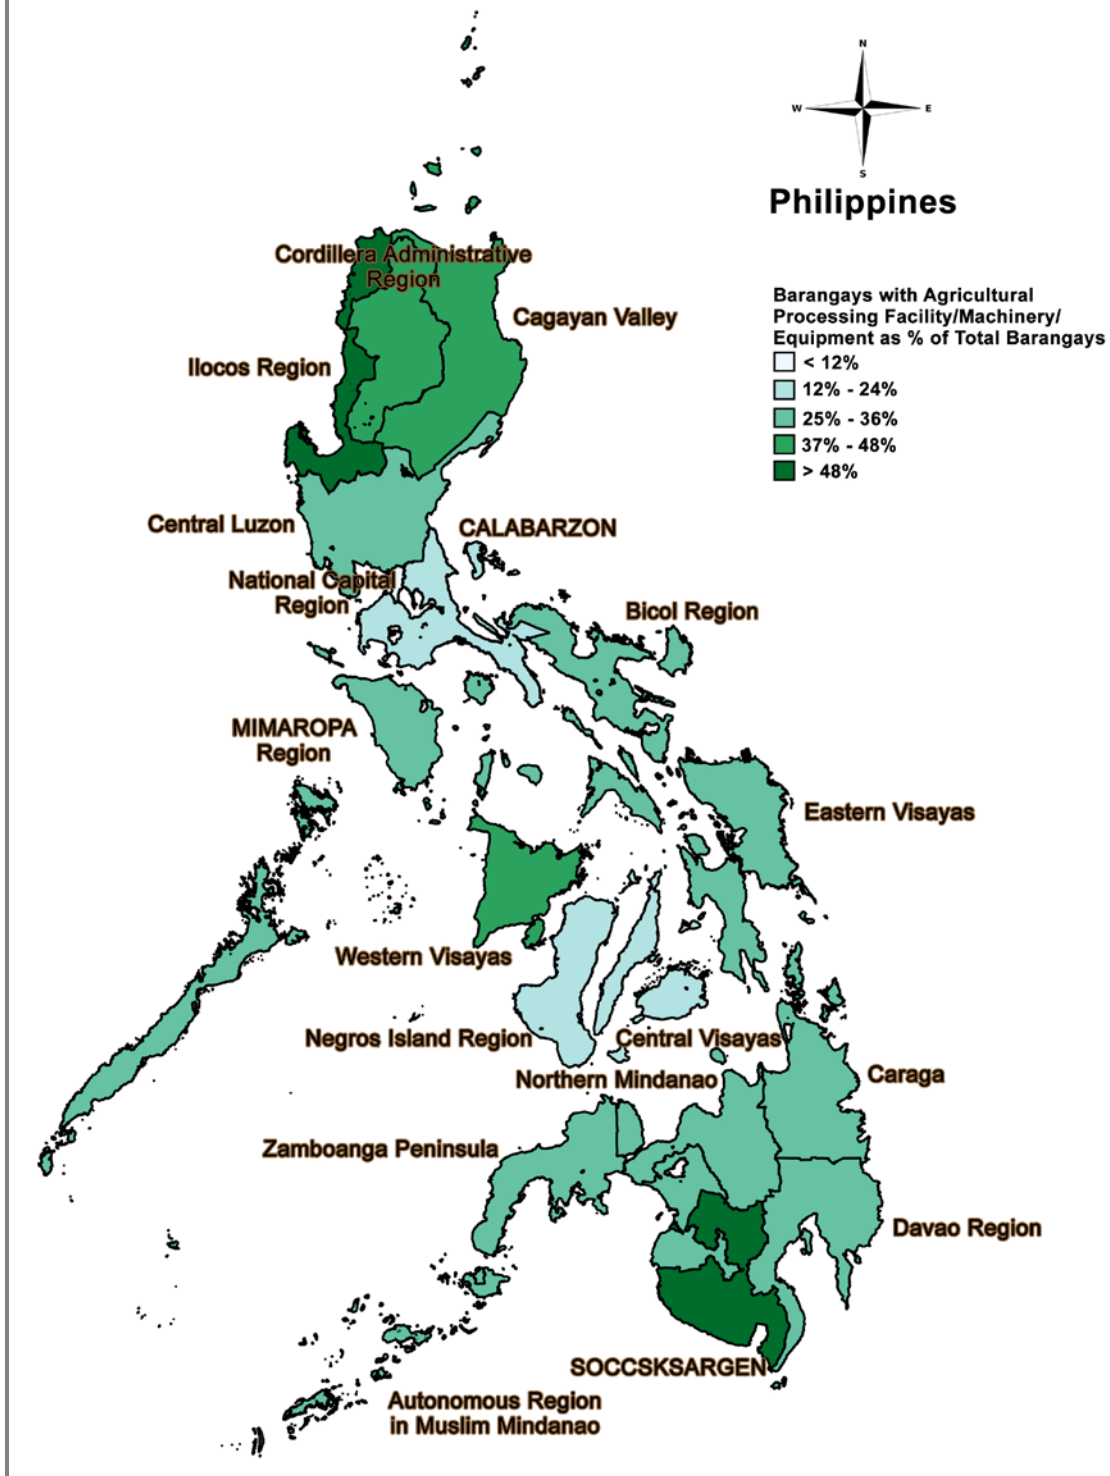

FIGURE 3. Proportion of Barangays with Rice or Corn Mill to the Total Barangays in the Region: Philippines, 2012

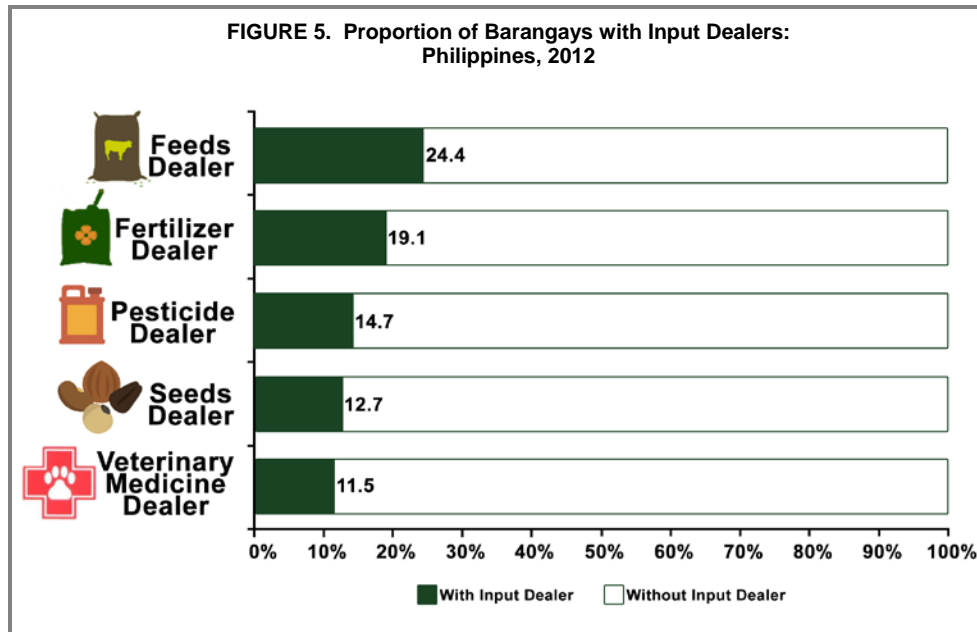

FIGURE 4. Proportion of Barangays with Agricultural Processing Facility/Machinery/Equipment to the Total Barangays in the Region: Philippines, 2012

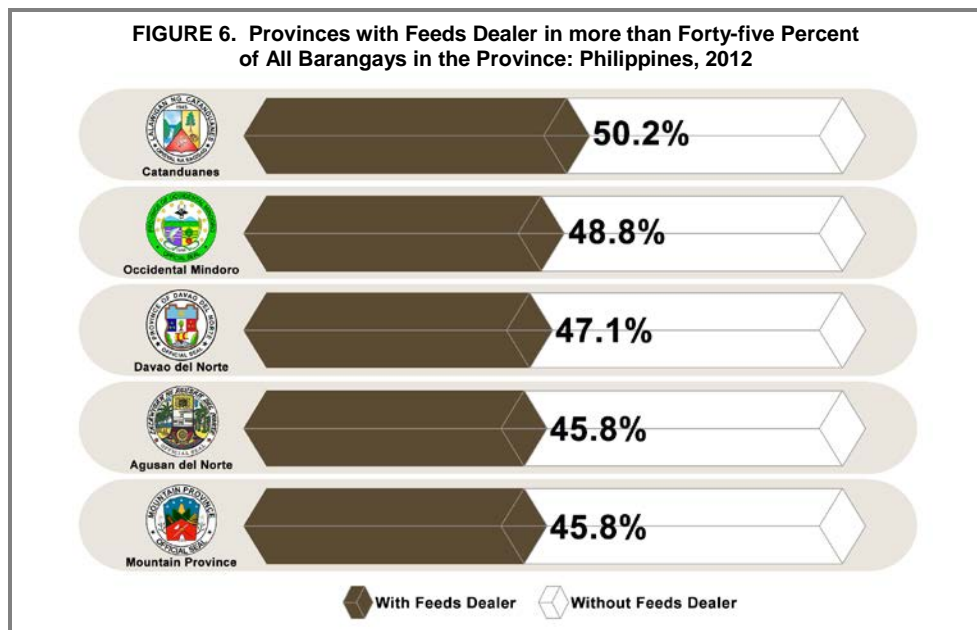

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

2.2 Feeds dealers were the most common input dealers in the barangays

Around 24.4 percent (10 thousand) of the barangays reported the presence of feeds dealers in their barangay (Figure 5). Davao Region (391 barangays or 34.9%) and Bicol Region (1 thousand barangays or 34.5%) had the most number of barangays with feeds dealers (Table 14).

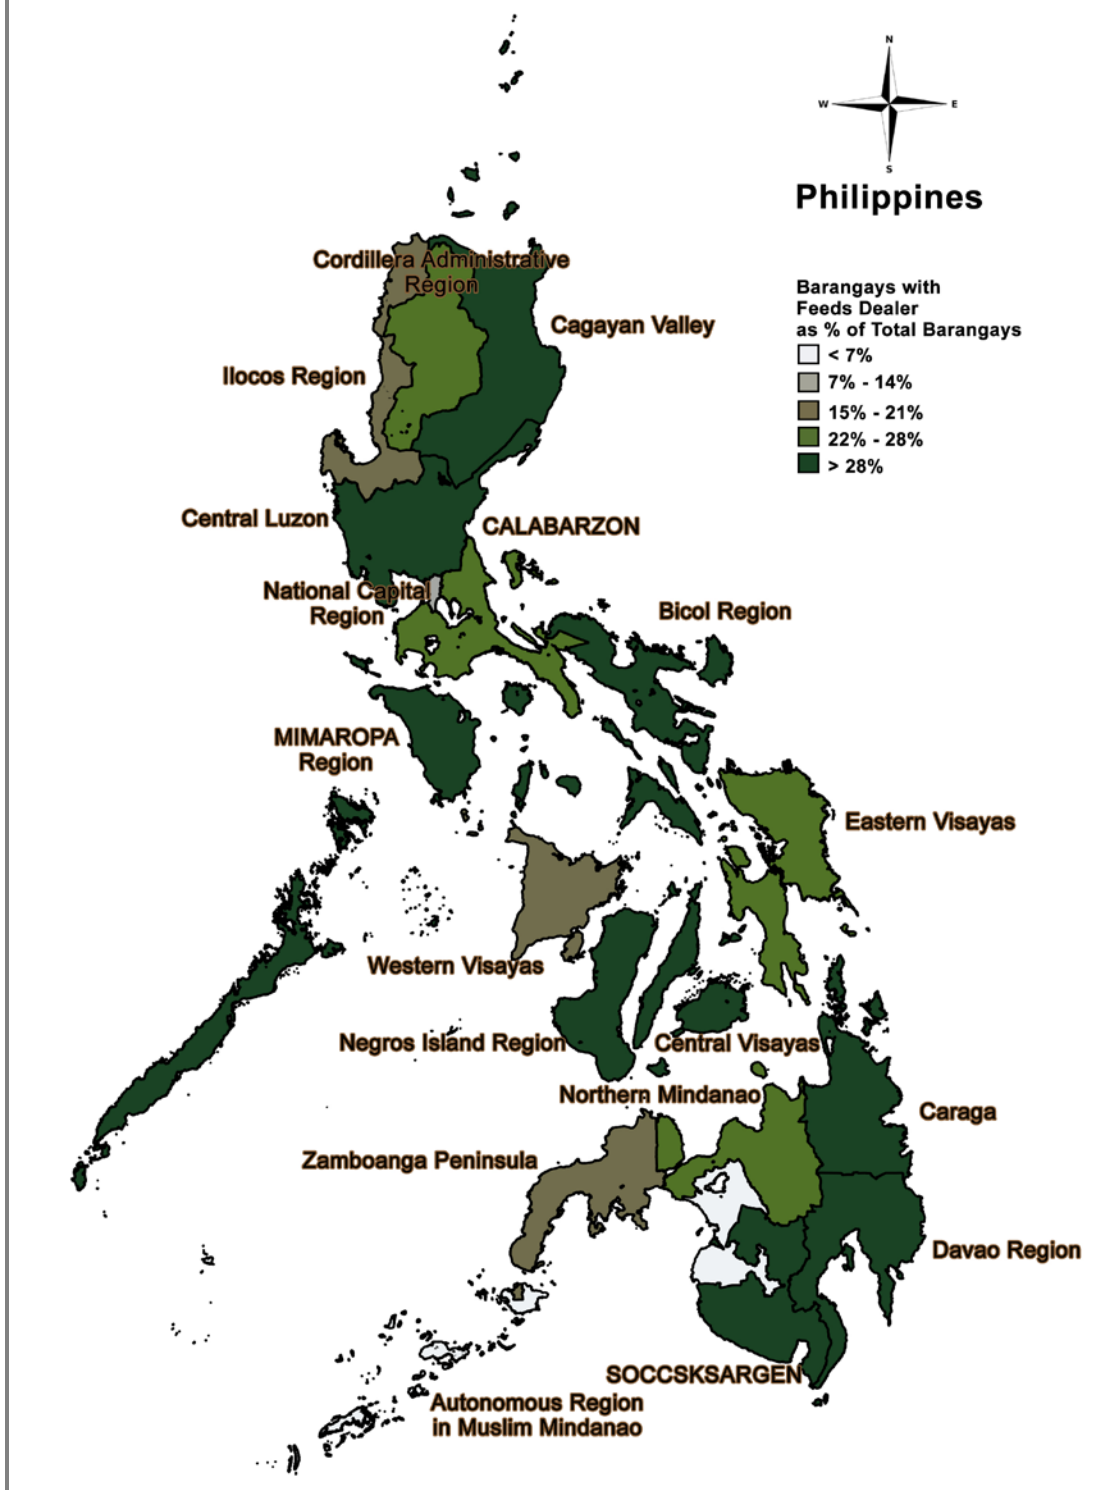

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

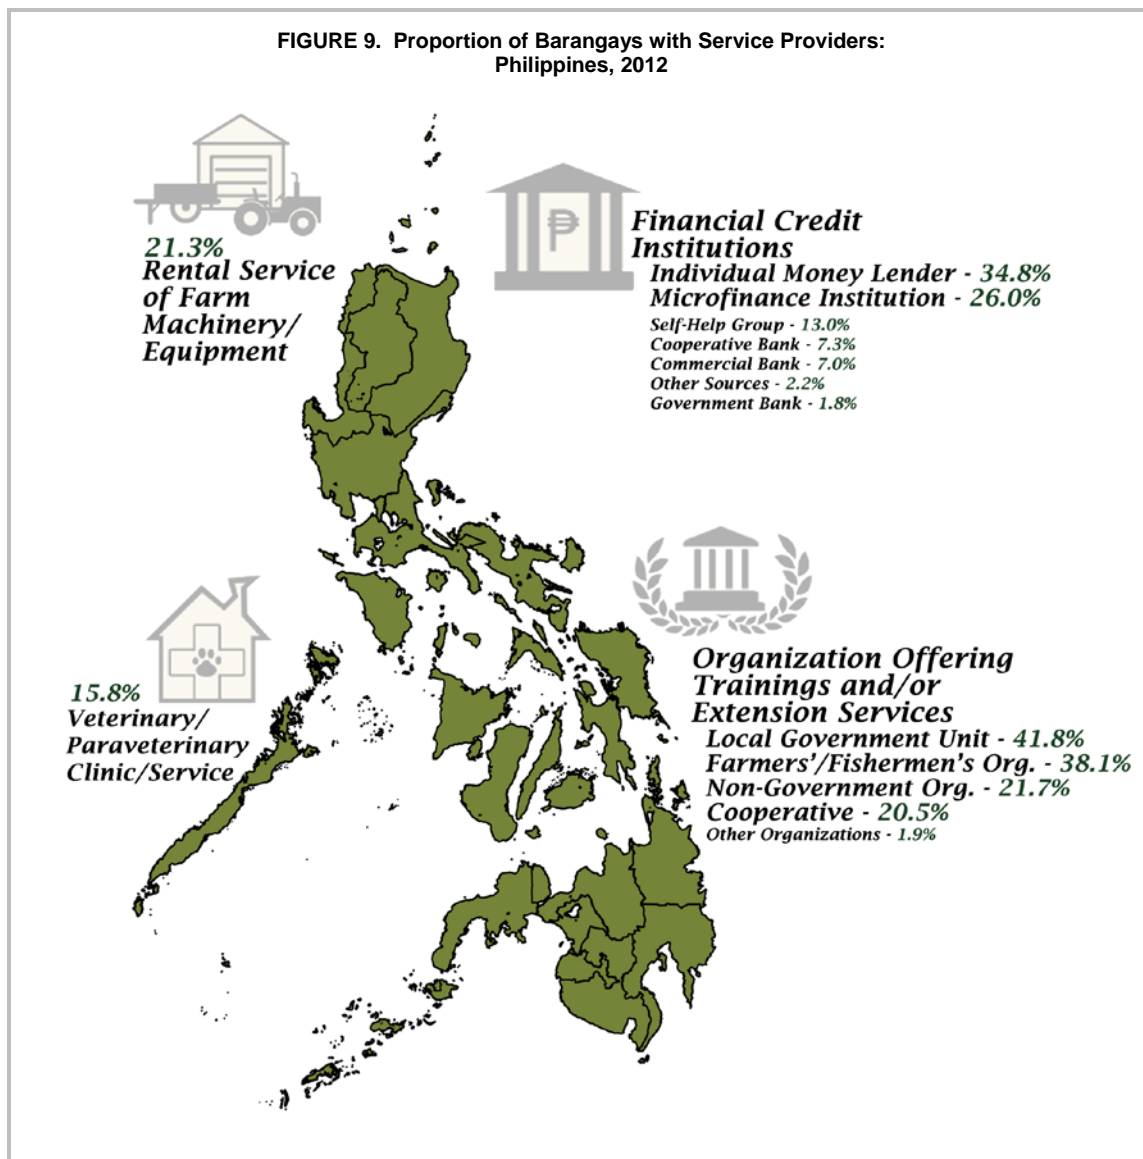

FIGURE 8. Proportion of Barangays with Fertilizer Dealer to the Total Barangays in the Region: Philippines, 2012

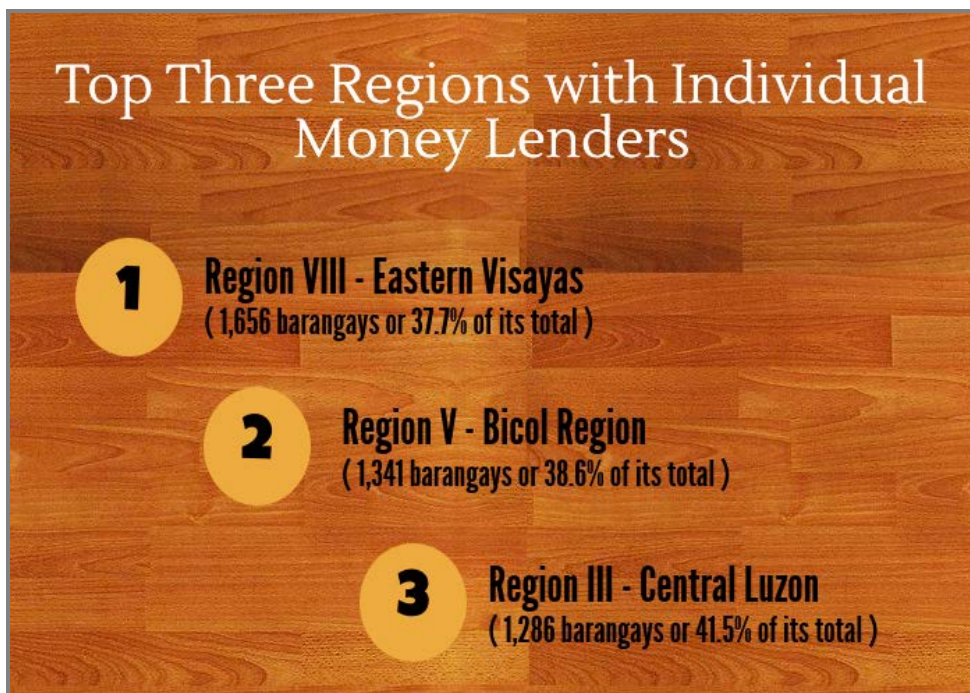

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

2.3 Individual money lenders were present in one out of three barangays in the country

Among the financial credit sources, individual money lenders were the top source of financial credit available in the barangays (Figure 9). About 15 thousand barangays or 35 percent of the total barangays covered reported the presence/availability of individual money lenders in their area.

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

One-fifth of the total barangays covered (9 thousand) reported that rental service of farm machinery/equipment were present/available in their area. One out of three barangays (34.1%) in Ilocos Region had this rental service in their area.

The local government units (LGUs) were the main organizations offering trainings and/or extension services in the barangays. Two out of five barangays (41.8%) reported the availability of these services from LGUs (Figure 10).

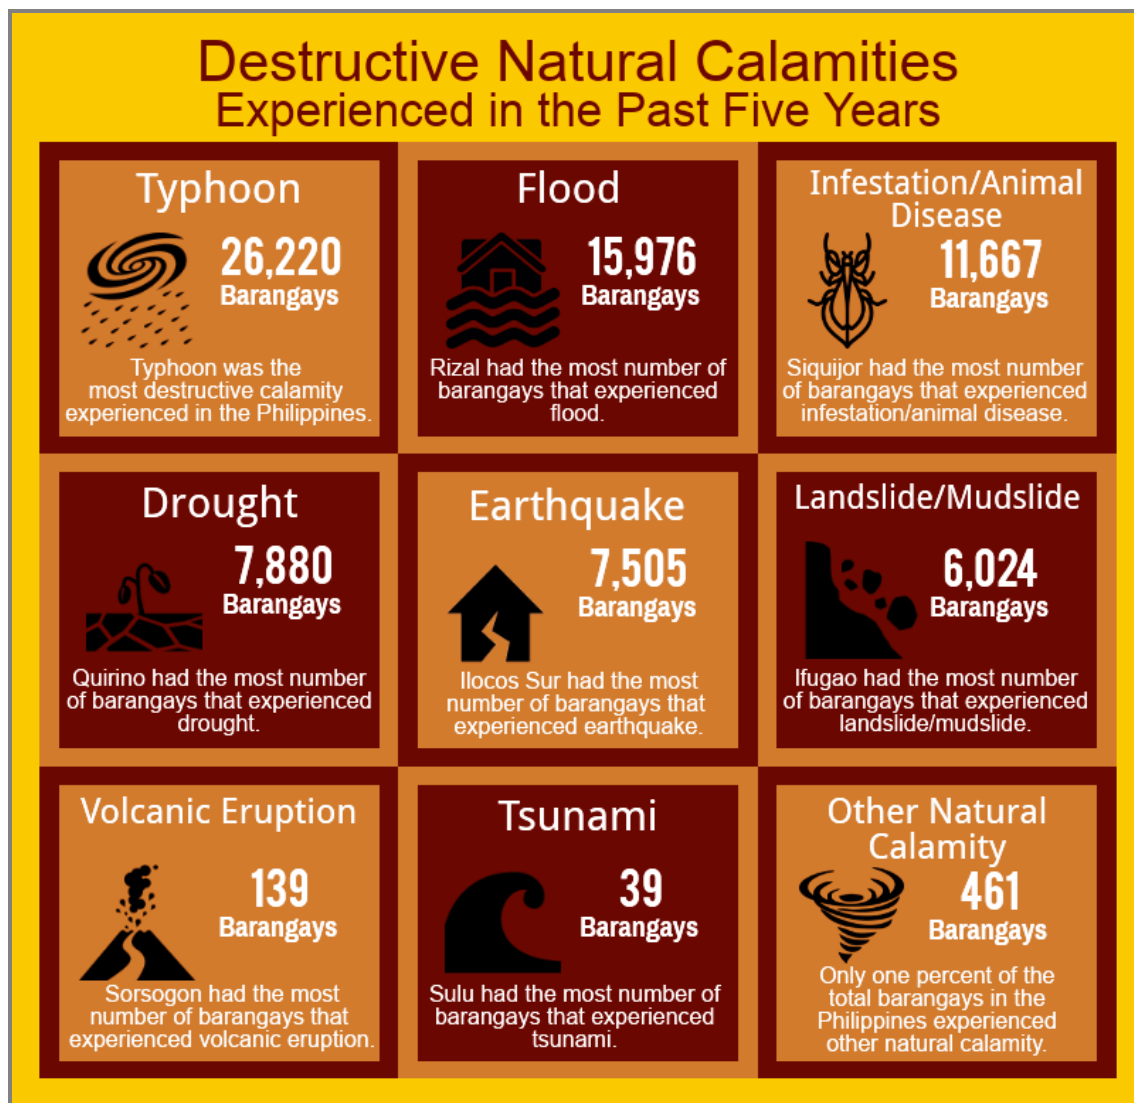

Source: Philippine Statistics Authority, *Census of Agriculture and Fisheries 2012*

2.4 Typhoon was reported as the most common destructive natural calamity in the Philippines in the past five years

Typhoons develop in the Pacific Ocean and pass through the islands of the country. As a result, typhoon was the most destructive calamity experienced in the Philippines. More than half (62.5%) of the total barangays covered reported to have experienced a destructive typhoon in the past five years.

Likewise, during the rainy months, lowlands reported to have experienced destructive floods. Almost two out of five barangays (38.1%) reported flooding in their area. The province of Rizal reported the most number of barangays that experienced flooding.

Barangays that Experienced Destructive Natural Calamity in the Past Five Years		
Typhoon	805	66.04
Flood	493	40.44
Earthquake	689	56.52
Volcanic Eruption	6	0.49
Tsunami	3	0.25
Landslide/Mudslide	225	18.46
Infestation/Animal Disease	394	32.32
Drought	234	19.20
Other Natural Calamities	21	1.72

Notes: The data are based on the information provided by the head of barangay or any barangay official in his/her behalf.

The data were not subjected to 100-percent field validation, hence, should be used with caution.

Rice or corn mill includes mobile rice or corn mill.

Agricultural processing facility/machinery/equipment includes mobile agricultural processing facility/machinery/equipment.

Fertilizer dealer includes mobile fertilizer dealer.

Pesticide dealer includes mobile pesticide dealer.

Seeds dealer includes mobile seeds dealer.

Feeds dealer includes mobile feeds dealer.

Veterinary medicine dealer includes mobile veterinary medicine dealer.

Veterinary/paraveterinary clinic/service includes mobile veterinary/paraveterinary clinic/service.

GLOSSARY

GLOSSARY

Barangay

A barangay is the smallest political unit in the country.

Facility

- a. **Rice/corn mill** - a machine which dehulls or polishes grains in one operation, generally producing a high proportion of broken kernels. Included in this category are rice/corn mills that have fixed location and those that are mobile. Rice/corn mills are also known as *cono*, rubber roll, or "*kiskisan*".
- b. **Feed mill** - a mill in which stock feeds are prepared. The feeds may be for livestock, poultry, and/or aquafarm species.
- c. **Slaughterhouse/dressing plant** - A *slaughterhouse* is a facility where animals are slaughtered before they are processed as food products for consumption.

A *dressing plant*, on the other hand, refers to a facility where slaughtered animals are cleaned and cut into pieces (fit for consumption) before they are distributed to the markets.

- d. **Agricultural processing facility/machinery/equipment** - a facility/ machinery/ equipment (fixed or mobile) where raw or fresh harvests are processed to produce products for market and consumption. Examples are thresher, corn/palay dryer, corn sheller, coffee pulper, oil/juice extractor, and rice flour mill. Note that such facility, machinery, or equipment should be available for public use (whether for free or for a fee) and in good working condition. Excluded in this category are rice/corn mills.
- e. **Fish landing center** - a facility where fish and other aquatic plants and animals are brought right after they are caught/gathered and are prepared for sorting. This facility is different from a pier where boats/vessels dock even without fish and other aquatic plants and animals caught/gathered.
- f. **Periodic or permanent agricultural produce market** - a place or building where farmers bring their produce or harvest for purposes of trading or private purchase and sale. The market may be operational every day or only on certain days of the week. This place is commonly known as "*bagsakan*" or "*bulungan*".
- g. **Hatchery (for poultry and aquafarm species)** - A poultry hatchery is a facility where eggs of poultry birds are hatched under artificial conditions.

A *fish or aquafarm hatchery*, on the other hand, refers to a facility where brood stock of eggs are hatched and reared into fry in a body of water (artificial or natural) contained in tanks or ponds under controlled condition in fresh and/or saltwater environment. For purposes of the 2012 CAF, a facility used for raising of fry to fingerling is also considered a hatchery.

- h. **Breeding/multiplier farm (for livestock and poultry)** - a facility used for selective breeding/reproduction of livestock and/or poultry.
- i. **Nursery/greenhouse/screen house/nethouse** - A *nursery* is a place where young plants, trees or vines are propagated for purpose of transplanting. It could be in an open area or under a protective cover. Some nurseries specialize in one or more specific phase of the process of growing plants: propagation, growing out, or retail sale; or in one or more type of plant: groundcover, shade plant, fruit tree, or rock garden plant.

A greenhouse, screenhouse or nethouse is a building where plants are grown. A greenhouse is a structure with different types of covering materials, such as glass or plastic roof and frequently has glass or plastic walls. It heats up because incoming visible radiation from the sun are absorbed by the plants, soil, and other things inside the building.

A screenhouse, on the other hand, uses screens as covering materials for the roof and walls to protect the plants usually under nursery. Moreover, a nethouse uses nets (such as fishnets) as covering materials.

Input Dealer

- a. **Fertilizer dealer** - a person or establishment who/that sells fertilizers to farmers or farm operators. A *fertilizer* is any organic or inorganic material/substance of natural or synthetic origin, which is applied to the soil, irrigation water or hydroponic medium to supply plants with nutrients or enhance plant growth. Excluded in this category are persons/establishments who/that sells chicken dung and other animal manure as fertilizer.
- b. **Pesticide dealer** - a person or establishment who/that sells pesticides to farmers or farm operators. A *pesticide* is a substance or mixture of substances intended to repel, mitigate, control or destroy diseases and pests in plants or animals, and prevent any harm to agricultural commodity during the production, storage, transport, processing, and/or marketing phase. Included in this category are dealers of weedicides, herbicides, fungicides, rodenticides, insecticides, and other biopesticides.
- c. **Seeds dealer** - a person or establishment who/that supplies seed inputs to farmers or farm operators.
- d. **Feeds dealer** - a person or establishment who/that supplies processed food products for livestock and/or poultry. Also included in this category are aquaculture feeds dealers.
- e. **Veterinary medicine dealer** - a person or establishment who/that supplies veterinary medicines for livestock, poultry and even animal species cultured in aquafarms.

Note: Excluded are persons/establishments who/that sell fertilizers, pesticides, seeds, feeds, or veterinary medicine, only by chance and who/that are not always available whenever they are needed or called upon by the farmers or fishermen.

Further, a person or establishment who/that falls into any or all of the abovementioned categories for input dealers shall be counted separately under each category. For instance if a person/establishment sells fertilizers, pesticides, and feeds at the same time, that person/establishment should be counted separately as a fertilizer dealer, pesticide dealer, and feeds dealer.

Service Provider

- a. **Veterinary/paraveterinary clinic or service** - A *veterinary clinic* is a facility where professional veterinary services are provided for the maintenance of animal health, such as treatment of diseases, artificial insemination, vaccination, and surgical procedures.

Paraveterinary services, on the other hand, are those services offered by technicians or persons trained to assist the veterinarians, such as veterinary nurses and animal technicians who assist in the laboratory animal care, animal welfare work, and field testing of large number of agricultural animals.

- b. **Rental of farm machinery/equipment** - a person/group of persons or entities who/that offer (for a fee or rent) the use of a machinery/equipment for agricultural and/or aquaculture production, such as tractor, thresher, pump, and generator. Also included in this category are machineries/equipment which are owned by the barangay and lent to the farmers/aquafarm operators in the barangay for a fee.
- c. **Financial credit institution** - a person/group of persons or financial institutions who/that provide credits for purposes related to the operation of an agricultural holding, aquafarm or fishing activity. This includes banks (commercial, government, and/or cooperative banks), microfinance institutions, individual money lenders, self-help group, among others. These individuals/institutions are bound by terms and conditions, such as when the farmer, farm operator or fisherman defaults on the term of the loan, a form of collateral may be sold and the proceeds may be used to pay off the loan.

1. **Commercial bank (including rural bank)** - A *commercial bank* is a formal type of financial institution and intermediary. It is a bank that provides transactional savings and money market accounts and accepts time deposits.

A *rural bank* is a more popular type of bank in the rural communities. Its role is to promote and expand the rural economy in an orderly and effective manner, by providing people with basic financial services. It helps farmers through various stages of production, from buying seedlings to marketing of their produce. Rural banks are privately-owned and -managed. It has the power to provide credit facilities to farmers, fishermen and/or merchants or to cooperatives of such farmers, fishermen and/or merchants, and in general, to the people of the rural communities where the rural bank operates.

2. **Government bank** - a bank owned by the Philippine government. These banks are the Land Bank of the Philippines, Development Bank of the Philippines, and Al-Amanah Islamic Investment Bank of the Philippines.

3. **Cooperative bank** - A *cooperative bank* is similar to a rural bank with respect to its services. The two are differentiated from each other by form and ownership. A cooperative bank is organized/owned by cooperatives or a federation of cooperatives. Rural banks, on the other hand, are organized in the form of stock by corporations, associations, and cooperatives.
4. **Microfinance institution** - an institution that provides a broad range of financial services such as deposits, loans, payment services, money transfers, and insurance products to the poor and low-income households and their microenterprises. Such institutions are usually established by private corporations, foundations, religious organizations, and NGOs to help alleviate poverty through capability building, people empowerment, and rural development.

Examples: Center for Agriculture and Rural Development, Incorporated (Card, Inc.), Ikabuhi Microfinance Program (IMP), HMF Financial Services, Private Limited (HELP), Asia and Africa International (ASA), Ahon sa Hirap, Incorporated (ASHI); Negros Women for Tomorrow Foundation, Incorporated (NWTf); and Serviamus Foundation, Incorporated.

Also included in this category is the Quedan and Rural Credit Guarantee Corporation (QuedanCor), a government financing institution under the Department of Agriculture (DA).

5. **Individual money lender** - a person who offers small personal loans at high rate of interest, usually higher than the market rate charged on credit cards or bank overdrafts. Money lenders are an important source of credit to a category of borrowers who would normally be refused credit by most financial institutions because their income may be at or below the poverty threshold.

Note: Also included in this category are money lenders who are residents of other barangays, provided that the borrower/s are residing within the barangay.

Natural Calamity

- a. **Typhoon** - a violent tropical cyclone, in meteorological term, which is a low pressure system occurring in tropical oceans. Also included in this category are "buhawi" (tornado) and "ipo-ipo" (whirlwind).
- b. **Flood** - an overflow of an expanse of water that submerges land. It is also defined as a temporary covering by water of land not normally covered by water. Included in this category is the *La Niña* phenomenon that has effects on agriculture, aquaculture, and/or fishery.
- c. **Earthquake** - the shaking of the ground caused by the sudden breaking and movement of large sections (tectonic plates) of the earth's rocky outermost crust.
- d. **Volcanic eruption** - a *volcano* is a rupture or an opening on the Earth's crust. *Volcanic eruptions* occur when magma from the magma chamber of the Earth rises up the pipe and goes out of the vent. Occurrence of *ash fall* is included in this category if it had adverse effects on agriculture, aquaculture and/or fishing.

- e. **Tsunami** - a large, powerful wave caused by the sudden displacement of large quantities of water in the sea/ocean. Common causes of tsunami are earthquakes, volcanic activities, and landslides. *Storm surges* may also be included in this category if they are destructive to agriculture, aquaculture, and/or fishing in the barangay.
- f. **Landslide/mudslide** - a geological phenomenon, which includes a wide range of ground movement, such as rock falls, deep failure of slopes, and shallow debris flows. This can occur in offshore, coastal, and/or onshore environments. Occurrence of *soil erosion* is included in this category if it had adverse effects on agriculture and fishing.
- g. **Infestation/animal disease** - *Infestation* is the presence of unacceptable number of a pest population. The number may be considered too high because of the sheer number. The number of pests is considered too high because of the damage, danger, discomfort, threat or unattractiveness that the size of the pest populations may involve/cause. Plant and animal pests may include rats, bugs, and worms insects.

Animal disease includes, among others, hog cholera, foot and mouth disease, and bird flu. For coastal/island barangays, the occurrence of *red tide* is also considered an infestation. *Fish kill*, when caused by algae bloom, diseases, parasites, pollution, and the like is included in this category. It is excluded if the occurrence is due to overstocking of fish.
- h. **Drought** - an extended period of abnormally dry weather that causes water shortage and crop damage. Included in this category is the *El Niño* phenomenon that has negative effects on agriculture, aquaculture, and/or fishery.
- i. **Others** - This category includes other natural phenomena which cause damage to crops and animals such as *bushfire* (of natural cause) and *frost* (extremely low temperature), which occur in some parts of the Cordilleras, particularly Benguet Province.

6B	PART I – PRESENCE/AVAILABILITY OF AGRICULTURAL, AQUACULTURAL, AND FISHERY FACILITIES, INPUT DEALERS, AND SERVICE PROVIDERS IN THE BARANGAY		L
C. SERVICE PROVIDER			
<i>In your barangay, is there a/an . . . ?</i>			
1	Q1	veterinary/paraveterinary clinic/service?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	Q2	mobile veterinary/paraveterinary clinic/service ?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
2	Q1	rental service of farm machinery/equipment?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
3	Q1	financial credit institution:	
	i.	commercial bank (including rural bank)?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	ii.	government bank?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	iii.	cooperative bank?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	iv.	microfinance institution?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	v.	individual money lender?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	vi.	self-help group?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	vii.	other sources? SPECIFY _____	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
4	Q1	training and/or extension services to farmers and fisherfolks offered by:	
	i.	cooperative?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	ii.	farmers'/fishermen's organization?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	iii.	local government unit?	<input type="checkbox"/> 1 Yes _____ <input type="checkbox"/> 2 No
	iv.	nongovernment organization?	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
	v.	others? SPECIFY _____	<input type="checkbox"/> 1 Yes, <i>how many?</i> _____ <input type="checkbox"/> 2 No
PART II – DESTRUCTIVE NATURAL CALAMITY IN THE PAST FIVE YEARS			
Q1 <i>During the past five years, that is, from January 2008 to December 2012, did your barangay experience destructive natural calamities such as a/an . . .</i>			
1		typhoon?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
2		flood?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
3		earthquake?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
4		volcanic eruption?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
5		tsunami?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
6		landslide/mudslide?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
7		infestation/animal disease?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
8		drought?	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
9		others, SPECIFY _____	<input type="checkbox"/> 1 Yes, <i>how many times?</i> _____ <input type="checkbox"/> 2 No
PART III – DOMINANT TERRAIN OF THE BARANGAY			
Q1 <i>What is the dominant terrain of your barangay ?</i>			
	<input type="checkbox"/> 1 coastal	<input type="checkbox"/> 3 plain	
	<input type="checkbox"/> 2 mountainous/hilly	<input type="checkbox"/> 4 others, SPECIFY _____
